

- To transfer money and pay bills
- Payment of bills, sending of money and receiving money.
- Recharge and money transfer
- To get cash anytime I want
- Tv subscription
- Yes, I guess it is the best place to keep money
- Storage for money
- Yeah it does, I mostly use it for bills payment, Jamb payments and airtime recharge

- Reduction in the Transactions charges
- We should be able to get loan through it
- Reduce failed transactions. Sometimes network fails so please make an adjustment on that
- Upgrade the App when necessary. App is always asking for update
- If you can increase how fast the app works then it will be fine & Reducing the long transaction process
- Upgrade in terms of graphic look & user interface
- Those operating agents should ensure users have receipts for transactions
- Easy access and access to all bank and accounts plus better Payment methods
- The customer service needs to be improved and there should be a program like promo to encourage more customers
- others
